

Waddle & Roo[®]
Kid-Friendly Furniture

SmartNest

Congratulations on the brand new additions to the family (your baby and SmartNest)!

The SmartNest is not your ordinary cot. It is your baby's utmost safety and comfort in the shape of a crib! This manual will guide you through the setup and usage of your brand new SmartNest so you can keep your baby safe and snug even when you are not in the room.

The Waddle & Roo Baby Monitor App helps you stay connected to your little one with smart and reliable monitoring features. The next few pages provide easy, step-by-step guidance on setting up the app, adding a camera, and creating a baby profile. You can watch live video, receive alerts for motion or crying, and track room temperature to ensure your baby's comfort at all times. With simple controls to edit profiles, manage cameras, and customise notifications, the app makes baby monitoring convenient, safe, and reassuring for parents at home or on the go.

App Installation

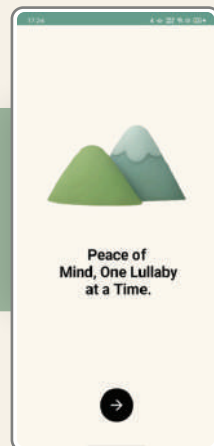

1.1 Download and Install the App

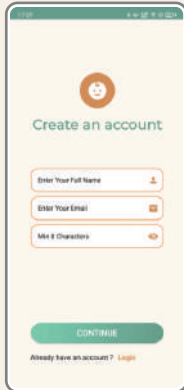

- Visit the Google Play Store/the App Store.
- Search for the Waddle & Roo app.
- Download and install the app.

1.2 Open the App

- Tap the app icon to launch the app.
- You will see the welcome screen with a message.
- Tap the arrow button to proceed.

Creating an Account

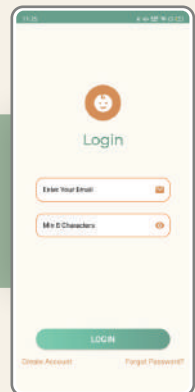

The screen displays a header with a smiley face icon and the text 'Create an account'. Below this are three input fields: 'Enter Your Full Name' with a person icon, 'Enter Your Email' with an envelope icon, and 'Min 8 Characters' with a checkmark icon. At the bottom is a green 'CONTINUE' button and a link 'Already have an account? Login'.

2.1 Sign Up If It's Your First Time

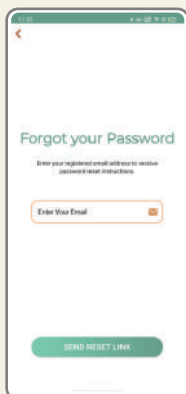

- Enter your full name.
- Enter a valid email address.
- Create a password (minimum 8 characters).
- Tap 'Continue'.

2.2 Log in If You Have an Account

- Tap 'Login' at the bottom of the screen.

The screen displays a header with a smiley face icon and the text 'Login'. Below this are two input fields: 'Enter Your Email' with an envelope icon and 'Min 8 Characters' with a checkmark icon. At the bottom is a green 'LOGIN' button, a link 'Create Account', and a link 'Forgot Password?'.

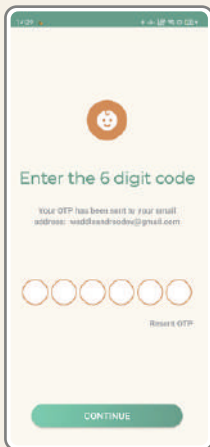

The screen displays a header with a back arrow and the text 'Forgot your Password'. Below this is a sub-header 'Enter your registered email address to receive password reset instructions'. There is an input field 'Enter Your Email' with an envelope icon. At the bottom is a green 'SEND RESET LINK' button.

2.3 If You Forget Your Password

- On the login screen, tap 'Forgot Password'.
- Enter your registered email address in the field provided.
- Tap 'Send Reset Link'.
- Check your email for a password reset link and follow the instructions to set a new password.

Creating an Account

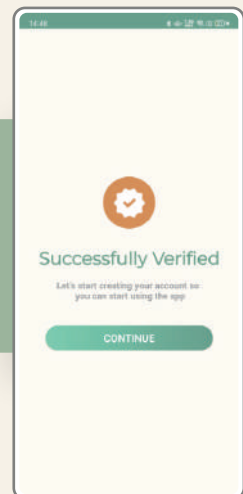

2.4 OTP Verification

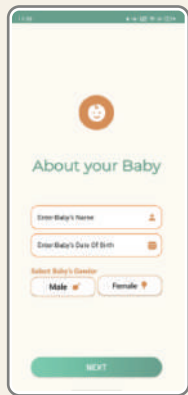

- After signing up or logging in, you will be redirected to the OTP verification screen.
- You will be sent a 6-digit OTP on your registered email address.
- Check your inbox for the 6-digit OTP and enter it in the circular fields.
- If you haven't received the OTP, check your spam folder or tap 'Resend OTP' to request a new code.
- Once the correct OTP is entered, tap 'CONTINUE'.

2.5 Successful Verification

- After entering the correct OTP, you will be redirected to a screen that says 'Successfully Verified'
- The message will say 'Let's start creating your account so you can start using the app.'
- Tap 'CONTINUE' to proceed to the next step.

Creating a Baby Profile

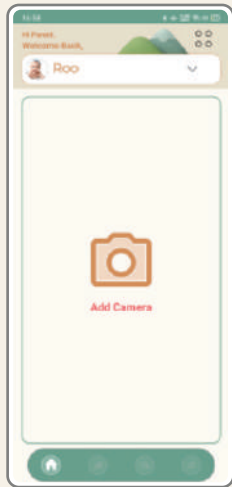

The screenshot shows a mobile app interface for creating a baby profile. At the top, there is a circular icon with a baby's face. Below it, the text "About your Baby" is displayed. There are three input fields: "Enter Baby's Name" with a person icon, "Enter Baby's Date Of Birth" with a calendar icon, and "Select Baby's Gender" with "Male" and "Female" options. At the bottom, there is a green "NEXT" button.

3.1 Enter Your Baby's Details

- Enter the baby's name.
- Enter the baby's date of birth.
- Select the baby's gender.
- Tap 'NEXT'.

Adding and Connecting the Camera

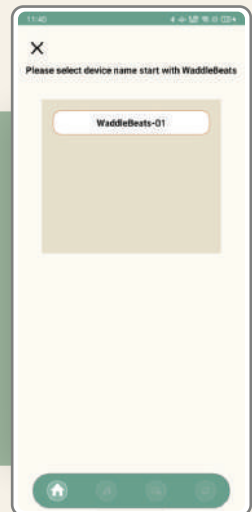

4.1 Add a Camera

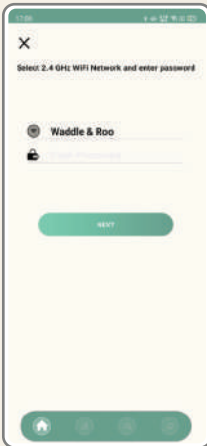

- On the Home Screen, tap 'Add Camera'.
- Follow the instructions to connect the camera to the Wi-Fi.
- Once connected, you can view and manage the camera.

4.2 Select Your Device

- Once you open the app and proceed with the account setup, you will be asked to select your baby monitor device.
- The screen will display the instruction 'Please select device name starting with WaddleBeats'.
- Look for a device in the list that starts with WaddleBeats (Example here: WaddleBeats-01).
- Tap on the device name to select it and proceed to the next step.

Connecting and Linking Account

5.1 Connect to Wi-Fi

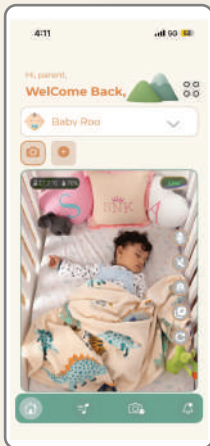

- After selecting your device, you will be prompted to connect it to a Wi-Fi network.
- The instructions will read:
 - "Select 2.4 GHz WiFi Network and enter password"
- From the list, choose your home Wi-Fi network (example here: Waddle & Roo).
- Enter your Wi-Fi password in the field provided.
- Tap the NEXT button to confirm and connect your device.

5.2 Complete Setup with QR Code

- After completing the Wi-Fi setup, a QR code will appear on your screen.
- Use your baby monitor camera to scan this QR code.
- Ensure the QR code is between 15 and 20 cm away from the camera for accurate scanning.
- Scanning the QR code completes the camera setup and links it to your account.

Live View and Monitoring

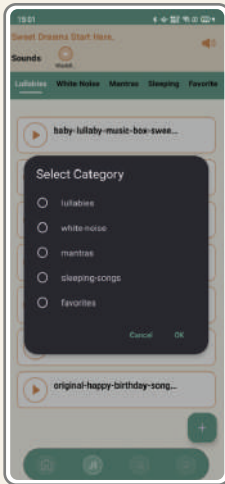

6.1 Live Camera Screen

- Once the QR code is scanned successfully, you will be redirected to the Live Camera View.
- The top left displays the temperature and humidity of the room.
- The top right shows the word 'Live', indicating the camera feed is active.
- Use the controls on the right to rotate the camera view, mute/unmute the microphone, turn on/off the speaker, expand the camera window or reset the view.
- The live view lets you monitor your baby's environment in real-time.

- Baby Mic On/Off
- Speaker On/Off
- Rotate Camera angle
- Full Screen View
- Refresh

Playing Sounds for Your Baby

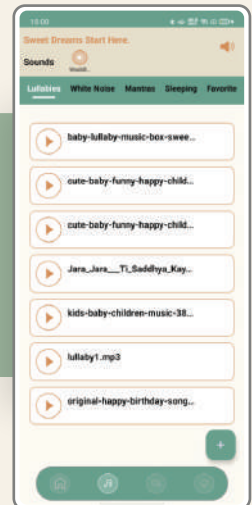

7.1 Set up the Sounds Screen

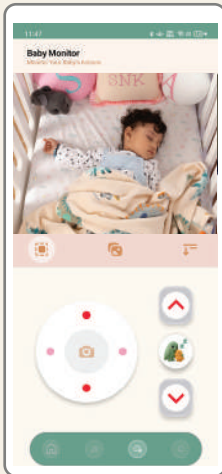

- After setting up the camera, tap the music note icon at the bottom of the screen.
- The sounds screen opens with categories like Lullabies, White Noise, Mantras, Sleeping, and Favourites.
- Tap on any category to view the available sounds.
- Tap 'Play' next to the sound to listen instantly.
- Use the sound icon at the top right to adjust or mute the sound.

7.2 Add a New Sound

- Tap the plus symbol (+) at the bottom right.
- A popup titled 'Select Category' will appear.
- Choose the category in which you want to add the sound.
- Tap 'OK' to confirm the category and add the sound file.

Camera Controls and Smart Functions

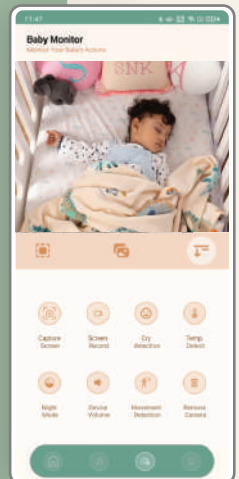

8.1 Camera Controls

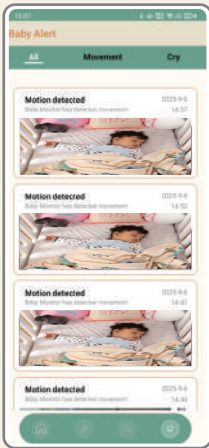

- Tap 'Camera Control' to open the navigation panel.
- Use the directional buttons to move the camera up, down, left, or right, ensuring you always have the best view of your baby.
- Cradle Control
- Long-press the up or down arrow to cradle upward or downward, ensuring a comfortable and continuous view of your baby

8.2 Smart Functions

- **Capture Screen:** Take a quick snapshot of the live video feed.
- **Screen Record:** Record the live stream and save it directly to your device.
- **Cry Detection:** Automatically detects when your baby is crying and sends you an alert.
- **Temperature Detection:** Displays and monitors the room's temperature and humidity in real time.
- **Night Mode:** Enables night vision for clear monitoring even in dark environments.
- **Device Volume:** Adjusts the speaker volume of the camera device.
- **Movement Detection:** Sends alerts when any motion is detected in the camera's view.
- **Remove Camera:** Option to disconnect or delete the camera from your account.

Alerts & Notifications

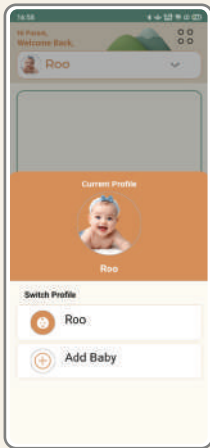

9.1 Know Your Baby's Surroundings Immediately

- Open the 'Baby Alert' section to check notifications related to your baby's activities. Alerts are divided into three tabs:
 - All: Displays all recorded alerts.
 - Movement: Shows notifications when motion is detected.
 - Cry: Displays alerts when the system detects crying
- Each alert includes a thumbnail image, date and time for quick reference.

Managing Your Baby Profile

10.1 Manage the Baby's Profile Instantly

- From the 'Profile' section, manage or switch between different baby profiles.
- 'Current Profile' shows the baby being monitored currently.
- To switch, simply select an existing profile.
- To add a new baby profile, tap 'Add Baby', fill in the details, and save.

10.2 Edit Your Baby Profile

- Tap the pencil icon next to the baby's profile picture to update details such as the name or photo.
- This helps keep your baby's profile accurate and personalised.
- To remove a camera, select 'Remove Camera' if you want to disconnect it from the app. (Use this option when you no longer need the device connected or want to pair a new one)
- To delete a profile, tap 'Delete Baby Profile' if you want to permanently remove the current baby's profile from the app. (Use this option if you want to reset or no longer track that profile)
